Education

Master's degree in Engineering Management — **Politecnico di Torino**
Focus: Business Solutions/Finance — 09/2025 – Present

Bachelor of Science in Computer Engineering — **Politecnico di Torino**
Major: Computer Engineering — 09/2022 – 09/2025

Experience

Technical Management Trainee — *OpenSky VR Italia*
01/2025 – 06/2025
- Built a property visualization platform using React, Angular, RESTful APIs, Matterport, and LiDAR for interactive 3D walkthroughs and VR previews.
- Reduced property presentation time by approximately 30% through immersive virtual tours.
- Delivered an MVP within six months with a six-person cross-functional team.

Junior Data Analyst — *Fibzio*
09/2023 – 12/2024
- Queried MS SQL and PostgreSQL datasets and built Power BI dashboards tracking 10+ service metrics, SLA adherence, and incident trends.
- Supported FP&A through budget forecasting and variance analysis; improved data quality and Excel reporting, reducing turnaround time by 40%.
- Analyzed network and storage performance to reduce incidents by 20% and provided client training that increased satisfaction by 25%.

Marketing Manager — *AIESEC*
11/2022 – 06/2023
- Led a 10+ member volunteer team, coordinating event logistics and tracking campaign performance.

Hackathons

Therness Hackathon – 1st Place — Feb 2026
- Analyzed 1,551 welding samples across thermal video, audio, and sensor data to detect and classify six defect categories.

Automation Hackathon – 2nd Place — Mar 2026
- Built an AI supply chain risk platform in five hours, extracting supplier intelligence for 1,000+ vendors.
- Used ScrapeGraphAI and LLMs to identify geopolitical, weather, and logistics risks affecting cargo routes.

404: Pothole Not Found – LOKI Urban Monitoring Hackathon – 1st Place — Oct 2026
- Developed cityX, an AI-powered civic intelligence platform that turns street reports into actionable incidents.
- Implemented AI-assisted classification, geospatial analysis, duplicate detection, and risk-based prioritization with privacy safeguards.

Leadership Skills

President — *Politecnico Indian Students Association (PISA)*
04/2023 – Present
- Lead strategic planning and initiatives impacting 1,000+ students.
- Organized a Red Bull-sponsored chess tournament with 400+ participants, managing budgets, sponsorships, logistics, and teams.

Volunteer

Logistics Coordinator — *Torino 2025 FISU Games*
05/2024 – 07/2024
- Coordinated logistics across 5+ venues, conducting pre-event inspections and supporting on-site execution.

Skills & Tools

- **Technical:** Python | AI/ML | MATLAB | SQL | Docker | JIRA | Trello | Notion | Asana | Power BI | Figma
- **Business:** Market Research | Project Management | Startup Research | Public Speaking | Entrepreneurship
- **Languages:** Hindi (Native) | English (Professional) | Italian (Beginner)

Interests

Football • Technology Startups • Economics • Community Development • Travel • FinTech

Certifications and Achievements

- INSIDE LVMH Certificate
- McKinsey Forward Program
- CS50's Introduction to Computer Science
